Policy Implementation

The policies developed by the Board and the administrative regulations developed to implement policy are designed to foster an effective and efficient school system. Consequently, it is assumed that all Board employees and students willingly carry them out. In an attempt to ensure equitable and just treatment for all, suggestions for changes in, revisions, of, or additions to existing policies and regulations are welcomed from employees and students.

Administrators will inform employees and students of existing policies and regulations. Continuous disregard for Board policy and administrative regulations may be interpreted as willful neglect of duty or disobedience and may constitute grounds for dismissal or expulsion. Any employee or student who feels that he or she is subject to arbitrary and/or capricious regulations may institute a formal complaint.
