

OSCIM GRANT UPDATE

Great news! The Banks School District has been awarded **\$6 million in grant funding** to go towards projects listed in our proposed school bond.

When you receive your ballot, it will say that the school district is on a waitlist. **That information is outdated.** In between the deadline to file information for the bond measure and now, the school district was bumped up in priority. **We are now guaranteed the grant money, should the bond (measure 34-336) pass.**

Please visit our website or contact us if you have any questions or need more information.
